Pennsylvania, Ohio and Indiana, the October battle ground, won by the Radicals, have decided the result. The sixty votes of these States, thrown to Mr. Seymour would have elected him. The most careful compilation of returns to the present time, is that above given, though we would not be surprised Arkansas was not yet to be added to the Seymour column.

This is not a Waterloo defeat, and affords no reason for discouragement or that the Democracy have been compelled to contend against most fermidable odds. The luminose patronage, almost wholly transferred by the usurpations of Congress from the Executive to itself, has enabled Congressional influence to throw a prependerating weight into the scale. In addition to this, which has been unanything ever before seen in this country, the position of the Democratic party has been wofully misrepresented by the Radical leaders at the North, and egregiously misunderstood by a majority of the Northern people. The defeat of Seymour ognizant of these facts; and, indeed, on the other hand, it is matter of wonder that the entire Northern electoral vote

was not given to Grant. The latter's majority on the popular for Mr. Dana's success, though it must be vote will be very much smaller than said, that there are gentlemen in the dis- band of murderers are the emissaries of in the minority. This fact, if nothing else, should induce a man of Grant's temper if he be correctly understood, to adopt a conciliatory and conservative chief counsellors from among the modernte men of his party. We carnestly number of his countrymen who preferre reason to respect their views. This would be statesmanship. A few months will develop whether he has the sense ami, the courage to come fully up to the standard required by patriotic duty i the promises, and in the meantime it be houses all to await events in patience and hope for the best.

It | First, that the policy of redeeming the has been manifest for several months, five-twenty United States bonds in

greenbacks is becoming popular even in Massachusetts, where the bondholders made a desperate effort to defeat him; and second, that the meaner and more malignant he may have acted in the war and toward "Rebels," the more certain he is of the support of the Radical wing of the Republican party. This position scrupulously used on a scale far beyond is fortified by the following extract from the letters of a Boston Republican written several days before the election : "If real 'red hot' excitement is wanted, we have only to go a few miles from Bos-

SCRUYLUR COLFAX ON BLOODY MONDAY

The Louisville Courier has been bringing to light some rather ugly reminiscences of the man the Radicals put on the tighet with Grant. The Courier says many of the citizens of Louisville have a personal recollection of the discraceful riot which came off in that city, in the days of Know-Nothingism, and which has given to the day of its occursence the name of "Bloody Monday." At the time Schuyler Colfax was editor of the South Bend (Ind.) Register, and thus commented, in the following infa-

With the registration machinery under their control, the Radicals have found it rather an easy matter to carry elections in this State. My past may be the criterion frivolous pretext or other. It has become notorious that irresponsible parties have hawked certificates about on days of election to be given to parties who would vote \$4 25 Per Load of 17 Bushels for a certain candidate. But it seems that the material upon which these political gamblers have been operating is becoming exhausted, and so they have set their wits to work to obtain a new supply. The Press and Times, one of the Radical other Northern States, and all present in-

charged, during the pendency of the municipal election, that negroes were being imported from Kentucky by "the ring" to vota in that election for the present Radical Mayor of I think of drawing up a statement with this city. It seems that this pactice is not confined to the Radicals of Nashville. peal of the 3d inst., says :

" A prominent citizen of Memphis is responsible for the following statement, which under his word, we vouch for: Yesterday morning, while about a thousand negroes were gathered in the street, on the steps and in the hall around the registrar's office, an ancient-looking, cotton-covered, mellowed old darkey, came into the hall, and shoving his way through the crowd, got into the office, and asked for Gen. Smith. Our informant, who happened to stand near him, asked him what he wanted with "the General," and the answer was that Smith had promised him a dollar for every nigger that he brought in from Mississippi to register and vote for him. "I've got five here wid me," said ancient Africa, "and wants de money." Whether he got his money or not, our informant was unable to say, but at the last accounts he was eing registered along with his importa-

tions, by Scars, the Smith Registrar." A number of outrages were committed on negroes in Marion county, Arkansas, by a band of desperadoes a few days before the election, and the Memphis Appeul states that the opinion prevails that the hand who committed these outrages were sent over by the Smith wing of the Radicals in Memphis to terrify the negroes into leaving their homes and coming to was fought in Massachusetts before. I grieve to say, I see yet no chance for Mr. Dana's success, though it must be said, that there are gentlemen in the distinct who believe that it is still within reach, and that the defection from the ranks which General Butler yet keeps straight by the watchwords of party discipline and regular nomination, will be large enough in the last few days, to carry the day against the champion of repudiation at the polis. For the accomplishment of this they rely largely on aid to be brought from without in the person of speakers whose position cannot be to manufacture voters for the late election. This will probably explain why Smith

What are the honest, straight brave even Butler's enmity for the sake | forward people of Tennessee, of whatever party, to think of Registrars who use their official position to carry out such corrupt practices? November 2, 1868, It appears from a card issued by Messrs. Curry and Beaumont, that leaders of the Smith wing of the Radicals had told their negro dupes that they had a right to bear arms and use them against the swort officers of the law, if the latter attempted to interfere with them. From the earnest manner in which these officers endeavor to impress upon the negroes the "THE RIOTS AT LOUISVILLE-AN important fact that the laws of the land IMPRESSIVE WARNING TO PAPACY .- | forbid the carrying of arms "to the terror of any person," and that they should enforce these laws, "let the cost be what seeing in the proceedings of the aroused | it may," it is evident that the peace of Americans at Louisville a warning to the the city was seriously menaced by the negro dupps of General Smith. WIDE READERS. I have received many testimonials from prof have received many testimontals from pro-fessional and medical men, as my almanaca and various publications have shown, all of which are genuine. The following letter from a highly educated and popular physician in Georgia, is certainly one of the most sensi-ble communications I have ever received. Dr. Clement knows exactly what he speaks of and his testimony deserves to be written in words of gold. Hear what the Doctor says of BULL'S WORM DESTROYERS.

VALLANOW, WALKER COUNTY, GA., June 29, 1866 DR. JOHN BULL—Dear Sir: I have recently given your "Worm Destroyer" several trials, and find it wonderfully effections. It has not failed in a single instance to have the wished for effect. I am doing a pretty large country practice, and have daily use for some article of the kind. I am free to confess that I know of no remedy recommended by the ablest authors that is so certain and speedy in its effects. On the contrary they are uncertain in the extreme. My object in writing you is to find out upon what terms I can get the upon easy terms, I shall use a great deal of it. I am aware that the use of such articles is contrary to the teachings and practice of a great majority of the ERULLAR line of M. D.'s, but I see no just cause or good sense in discarging a remedy which we know to be efficient, simply because we may be ignorant of tscombination. For my part, I shall make it ruleto use all and any means to alleviate it ruleto use all and any means to alleviate suffe n humanity which I may be able to command—not hesitating because semi one command—not hesitating because same one more ingenious than myself may have learn-ed its effects first, find secured the sole right to secure that knowledge.
